## VICTOR MOORE RUN CLOSING TONIGHT

Victor Moore as "Chimmie Fadden" closes at the Liberty theater tonight and when he leaves he takes with him one of the biggest bundles of laughs ever in Honolulu. Not, however, without having left a goodly number in this city, as the merits of this Paramount feature have been heralded far and wide by the boosting photo-play fans, and the result has been packed houses—with everybody laughing themselves tired.

One of the best comedians in the picture business today is Victor Moore and one of the best vehicles ever constructed for a comedian is "Chimmie Fadden." This strong combination, with a cast of unusual merit—Jesse L. Lasky cast—has constituted the feature for the forepart of the week at the Liberty. Aside from the comedy there is a touch of pathos

in this creation of E. W. Townsend, and Victor Moore proves himself fully capable of handling the deeper parts.

An interesting item of news contained in the Hearst-Selig is the funeral at Arlington cemetery of the victims of the F-4. This picture will find a responsive note of sympathy in all Honoluluans who knew personally those brave lads who went to their death off Honolulu harbor.

Episode thirty-one of "The Romance of Elaine" is a great contrast to the feature offering. The Elaine picture is near to melodrama and is filled with incidents of a thrilling and a spectacular nature. In this latest series of this serial Arthur B. Reeves has availed himself of not a little material gleaned from the present war in Europe. In this episode asphyxiating gas is used to good advantage by Del Mar and his villainous crew.

## VAUDEVILLE IS RAGE THIS WEEK

Vaudeville is the rage this week at the Popular theater. The three acts running at Manager Hughes' Hotel street house drew another large and appreciative audience last night, and together with the program of moving pictures furnished entertainment that pleased the patrons. The three vaudeville features were all given applause, and recalls were the rule.

Miss Hamilton and Mr. Barnes repeated their previous successes in their clever and witty skit entitled "Just Fun." Their bright repartee on the street, in which a wheelbarrow served part of the time the purposes of a settee, kept the audience in a roar of laughter.

Miss Annie Kent sang some more of her original songs, and danced just as gracefully as ever. Her constant patter fairly teemed with humor and her comedy was clever. Miss Kent's popularity is increasing as the week lengthens, and it seems to be no trouble for her to win new friends and admirers.

The same may be said of Fred Dwyer, the Welsh boxer-soloist, who gives one of the best acts seen here in a long time. Dwyer is clever with the gloves, light as a panther upon his feet, sings well in a rich baritone voice and gives some valuable directions as to how to train your body to be healthy.

## DE FOLCO HAS SANG BEFORE THREE KINGS: ONE MADE HIM GIFT

Eugenio de Folco, the tenor who is to give a concert at the Opera house tomorrow evening and again Saturday night, has enjoyed the distinction of singing before three reigning European monarchs.

His first appearance before royalty was when Edward VII ruled in England. So delighted was King Edward with de Folco's rendition of arias from "Les Huguenots" that he gave the grand opera singer a jeweled stick pin, engraved with his initials. De Folco also sang before the king of Greece, and in Rome he sang at the arena in "Aida" at a special performance for the Italian king. On the latter occasion, Margherita, the queen mother, sent him a laurel wreath with her compliments.

The celebrated tenor is a descendant of the family of the great Italian poet, Dante, he and his father being the only descendants, for all collateral branches have died out.

## BRITISHERS PLANNING SMOKER ON EIGHTEENTH

At a smoker which the British Association Club plans to give Saturday, December 18, members of the Raymond Teal Company, Fred Dwyer and Annie Kent, now appearing at the Popular theater, and a number of local people will appear on the program, which will also include at least two good boxing bouts. The entertainment will be given at the skating rink and will be strictly invitational.

Secretary J. C. Veitch and H. M. Ayres are in charge of the entertainment. Refreshments are to be served and there will be good music. The members of the association expect this to eclipse a previous smoker which was given some weeks ago and was a great success.

## SIX HUNDRED AT MASS MEETING OF JAPANESE

More than 600 Japanese met in the Asahi theater last evening to discuss the plans for forming a special police guard for the protection of Japanese citizens in Honolulu. The meeting was opened by Dr. M. Negoro, chairman of the Japanese protective committee. Other speakers present were members of the Japanese press.

The committee urged generous contributions to the fund for carrying on the work of protection and asked that a guard be formed to cover certain sections of the city. The committee also urged that "the intolerable condition existing at the present time" be brought to the attention of the police department and to the secretary of state at Washington. A reward of \$300 was offered to any civilian who would arrest Yee Yo Keuk, the Korean bandit.

## BULL TERRIER ON DIX HAS LIFE INSURED AND TRAVELS WITH VALET

So valuable and blue-blooded is "Ginger," a screw-tailed Boston bull terrier, being shipped to Manila on the transport Dix, in port today, that his life has been insured for \$1000, and a special "valet" is accompanying him.

The dog belongs to Capt. W. J. Kendrick of the 9th Cavalry, who was recently ordered to the Philippines. His dog has won blue ribbons at dog shows in New York, Philadelphia and Boston, and has a pedigree a yard long.

"Ginger" has a special bunk in the stateroom occupied by Veterinary Surgeon S. H. Saul, Q. M. C., of the ship. The dog's "valet" keeps a constant watch over the canine, who today seemed rather lonely, and looked as if he would like to chase a few cats for exercise.

On the flat top of Table mountain, near Cape Town, a strong southeast wind produces a horizontal sheet of cloud known as the "tablecloth."

It is stated that a new cartridge devised for the French army will propel a bullet half a mile without any perceptible rise or fall.
